Re: Online Completion of Course Evaluations

Course evaluations for didactic interdisciplinary and core graduate courses must now be completed online. You may do this from any computer (school, home, or library).

#### Directions for Online Course Evaluation

- 1) Go to this web site  
<http://dental.case.edu/insidecase/courseval/coursevalgrad.htm>
- 2) Select your name. Names will not be linked to specific survey responses. No one will be able to identify a particular survey with a specific student.
- 3) Select the name of the course. You must fill out a separate evaluation for each course.
- 4) Answer each question. EVERY question must be answered, but comments are optional.
- 5) At the end of the survey, click "Submit." You will get a message saying that your survey was submitted.

If you have problems filling out the survey, please contact me.
