

CWRU Orthodontics students Heather Horton and Garrison Copeland took first and second place at the annual session of the Great Lakes Association of Orthodontists this October for their research presentations. Dr. Horton's research project, A Method to Compare Relative CBCT density in the Mandible, took first place while Dr. Copeland's project, Case Western Reserve University Transverse Analysis- Clinical Applications, took second. These awards were two of only three given out at the meeting. The Great Lakes Association of Orthodontists is a regional chapter of the American Association of Orthodontists and includes orthodontists from Indiana, Michigan, Ohio, Ontario, and Pennsylvania.
